

RARE DISEASE DAY

FEBRUARY 28 2026

Rare diseases affect 1 in 10 Americans, millions of children and families navigating diagnoses, treatments, and daily challenges most people never see.

💡 How You Can Participate:

- Wear Rare Disease Day colors, blue, purple, pink, and green
- Change your profile picture using custom Rare Disease Day frames
- Share LWW Rare Warrior Spotlight stories
- Join us on February 28 at the FREE movie event at 12pm at the Indiana Theater in Washington
- Talk with your kids, schools, and community about rare diseases
- Businesses and individuals are invited to "Light Up for Rare" by lighting your homes or buildings in blue, purple, pink, or green
- Visit Daviess Community Hospital and The Commons in Washington, which will be lit up as special backdrops — feel free to drive through on February 28 to enjoy the lights and show your support.

-Little Warrior Wishes
